DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

2. Claim 1 is objected to because of the following informalities: at line 4, the recitation of "the tubular shape" lacks proper antecedent basis. It is not readily certain as to what has a tubular shape. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 4, 7, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hass # 4,808,024.

Haas discloses a drainpipe 21 for a water dischargeable pavement body 11. With the passage of time, it is conceivable that such drainpipe is capable of disintegrating (breaking-up/fragmenting) so as to lose its tubular shape. Furthermore, drainpipe made of clay is known, and such pipes, over time is capable of disintegrating (breaking-up/fragmenting).

Allowable Subject Matter

5. Claims 2, 3, 5, 6, 8, 9, 11, and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
